ASSISTANT COMMISSIONER FOR PATENTS  
WASHINGTON, D.C. 20231

SIR:

Responsive to the final rejection of December 9, 1997, and supplementing the  
Amendment under 37 C.F.R. §1.116 filed February 11, 1998, please consider the following.

REMARKS

The Examiner in his Advisory Action of February 26, 1998 states that the amendment of February 13, 1998 will be entered. However, he adheres to his rejection of the claims under 35 U.S.C. §103 over the cited references. It is apparently his position that the prior art compositions "inherently" would be non-homogeneous, no distinction in homogeneity being seen between the claimed composition and the blends of the references.
